# SMOKE + BUBBLES MACHINE

Smoke bubble machine, generates soap bubbles full of smoke.

Reference: ZZBUBBLE

ZZBUBBLE generates smoke-filled bubbles with a characteristic effect. The excess fluid flows back into the container and does not dirty the area around the machine. Thanks to its innovative tank, the machine can also be installed suspended. Its versatility allows it to be used for shows, parties, concerts and events.

Evocative and spectacular machine generates a multitude of bubbles that release smoke when they burst. To make the effect even more spectacular, LEDs have been inserted on the front of the machine that illuminate the flow of bubbles, one of a kind for an unprecedented show.

## **Technical specifications:**

Power: 850W

Warm-up time: 3 minutes

Light sources: 11 x 8W RGBA LEDs

Liquid tank: 2.5 liters

Smoke liquid tank: 2.5 liters

Liquid smoke consumption: 60 min with 1 liter

Liquid consumption boils: 40 min with 1 liter

Controls: Remote control, DMX, Integrated panel

Dimensions: 455 x 400 x 450mm

Weight: 16Kg

Recommended liquids: [ZZNB1L](#) [ZZNB5L](#)
