
PRODUCES DENSE SMOKE THAT REMAINS ON THE GROUND, 1200W

Low smoke machine with double 3000W outlet pipe

Reference: ZZFMLOW3000

Professional low smoke machine, mounted on a comfortable and sturdy flightcase equipped with 4 swivel wheels. It produces dense smoke that remains on the ground creating a suggestive effect. Suitable for both large stages and theaters, the applications are manifold. The double tube supplied allows the machine to be positioned even far from the actual dispensing point and offers the opportunity to irradiate the area from different angles with a single machine. Operation is very simple and does not require dry ice or expensive CO2 cylinders. It works with simple water spray combined with normal smoke liquid. The maximum of the scenic effect with the minimum expenditure of means.

Technical specifications:

Power: 3000W

Warm-up time: 3.5min

Control: DMX, Integrated control panel

Smoke tank: 2.5 liters

Water tank: 20 liters

Irradiated area: 400 m²

Liquid consumption: 1-72ml / min

Water consumption: 185ml / min

Dimensions: 785 x 495 x 600mm

Weight: 52Kg
