# NON-PYROTECHNIC LIGHT FOUNTAIN EFFECT WITH MOVING HEAD BODY

Fountain streamers effect with moving head. Generates a light fountain up to 5m high.

Reference: ZZSPARMOVE

The revolution in the world of non-pyrotechnic effects combines the unique characteristics of the ZZSPARCOLD series with the versatility of a moving head, to create performances never seen before. 360 ° pan and 90 ° tilt allow a series of movements never seen before in this type of machines.

The integrated DMX control protocol allows you to quickly and easily create spectacular mobile light fountains to take the show to a new level.

Compact, lightweight and extremely robust, the ZZSPARMOVE represents the new frontier of luminous fountain effect machines.

## **Technical specifications:**
