pairing method

1. Take out from the charging warehouse or press the left and right earphone multifunction button for 3 seconds to start up the headset until the red and blue lights flicker alternately, enter the state of search and pairing for the ear, enter the state of automatic pairing for the ear. After the pairing is successful, the red and blue lights of the main ear (right ear) continue to flicker alternately, while the blue lights of the secondary ear slowly flash, and play the prompt sound of successful pairing for the ear.

2. Start the bluetooth function of mobile phone or other devices. If it is an android phone or device, please click the "search bluetooth device" option. When the model of the bluetooth headset is found, click to enter pairing; After the pairing is successful, the main (right) ear will send out a signal that the connection is successful, and the indicator lights of the left and right earphones will turn to blue light and enter the standby state of connection. After the pairing is successful, the main ear will be the right channel, and the secondary ear will be the left channel.

3. The two earphones can also be paired with the mobile phone independently. The operation method can be operated according to the operation method in step 2 above.

Charging operation

1. Plug one end of the Micro USB charging cable into the USB port of the charging warehouse and plug one end of the charger to charge the charging warehouse. The LCD will display the latest power.

2. Charge the earphone: put the earphone into the charging bin to charge it automatically. The earphone indicator is red when charging, and it will be off after being fully charged. The LCD of the charging cabin will display the remaining power. When the headset is fully charged, the LCD of the charging cabin will go out.

Precautions

1. Please charge in a safe environment. When charging the charging warehouse, please separate the charging warehouse from the USB charging cable as soon as possible after the charging indicator is

off, so as to avoid damage to the charging warehouse caused by the long time of charging.

2. When the music is playing, please adjust the music to the appropriate volume to avoid long-term damage to the hearing under the condition of high volume.
3. Try to avoid using the earphone where there is interference source, otherwise it may affect the earphone signal.
4. Try to avoid using the earphone in a corrosive environment, so as not to affect the function of the earphone.

Tips: when you use this bluetooth headset to listen to music or talk, please pay attention to adjust the volume, so as not to affect your listening too much!
