# MIXER A 24 CANALI CON DSP E MATRIX OUT

Compact analog mixer with built-in 32-bit DSP and full duplex sound card, 99 effects, bluetooth connectivity and media player. 4 groups of independently selectable auxiliary outputs, with matrix selector. 9-band EQ on the master. +48V phantom power

Reference: ZZMXPRO24

PROFESSIONAL mixers with DSP multi-effects and Bluetooth. The ideal solution to have everything under control. As great for fixed installations as they are versatile for mobile applications, they can easily handle microphones for a theater performance or inputs for a band's concert. The 2 AUX outputs guarantee excellent autonomy for live performances but also for connecting outboards in the studio. Internal effects, bluetooth connection, integrated sound card and mp3 player complete the range of features of these powerful and versatile mixers.

Compact analog mixer with built-in 32-bit DSP and full duplex sound card, 99 effects, bluetooth connectivity and media player. 4 groups of independently selectable auxiliary outputs, with matrix selector. 9-band EQ on the master. +48V phantom power
