### Description:

The PORTY-8A is an ultra-portable, battery-powered speaker with 120 watts output power that delivers professional, high-quality sound. The all-in-one 8" PA system offers a full-featured 4-channel mixer with DSP effects and multiple connection options for microphones, instruments and line sources, as well as a registration-free UHF wireless receiver with dynamic handheld microphone. The latest Bluetooth 5.0 technology with TWS support ensures fast and stable wireless connections to Bluetooth audio sources and links two PORTY-8A systems for stereo setups.

The powerful battery provides easily over 6 hours of continuous music playback without interruption for garden parties, singers/songwriters, karaoke, trade shows, fitness instructors and presentations. The 8 kg lightweight plastic enclosure comes equipped with a double flange for tripod mounting and tilts back for monitor applications. You can even charge your personal devices via the USB charging port and place them in the built-in tablet stand!
