

PLL-1 - PLL-Modulator

Video TV modulator, for inserting video sources into the antenna line.

- Suitable for the connection of video cameras, satellite receivers, games consoles, DVD players or wireless video receivers
- LED indication of the set channel (21-69)
- Integrated test pattern generator with audio signal
- Video input and stereo audio inputs via RCA jacks
- Supplied without PSU, matching PSU PSS-600E is available at option

Technical data:

Transmission range	: 47-862MHz
Video signal	: 1Vpp/75 Ohm
Audio signal	: 500mV/Ri > 10k Ohm
Channel range	: 21-69
Power supply	: 8-15V DC current /150mA
Admiss. ambient temp.	: 0-50 °C
Dimensions	: 55x55x50mm
Weight	: 65g
